

WELCOME

The International Congress on Renewable Energy will showcase the latest cutting edge research and results in this increasingly critical and important field.

Demands for alternative energy, human health and the environment drive development for new classes of alternative systems for Renewable Energy generation offer great potential to play a role in making effective, economical applications.

This Congress will present the latest research, innovation and commercial applications of new alternative methods for generating and meeting ever increasing energy demands.

Already, Industries and Academia from more than 27 countries have shown their interest and members of Government bodies discussing potential for Renewable Energy expansion programmes in and around the region.

1-3 July 2013

Athens, Greece

WELCOME

Dear Colleagues,

Welcome to the **International Congress on Materials and Renewable Energy** to be held at **InterContinental Hotel, Athens, GREECE during 1-3 July 2013**. This Congress is supported by the University of Bolton - UK (www.bolton.ac.uk) with a fundamental of uniting cutting edge research from Academia within the Alternative and Renewable Energy Sector and to translate that research into working application.

The Congress will focus on five critically important areas of active and evolving research in the application of Renewable Energy, with a full session devoted to each. The session themes are 1) Renewable Energy, 2) Advanced Materials for Energy Conversion, 3) Energy Efficiency and Conservation, 4) Energy Modelling and Simulation and 5) Emerging Energy Technologies.

The Congress have attracted renown Plenary and Invited Speakers from the scientific community to cover these topics during the first day, with representation from Greek Government to discuss current and future Renewable Energy projects. There are sessions dedicated to carefully selected presentations for oral as well poster presentations. Parallel sessions are arranged for the second and the third days, which will see range of oral and poster presentations from world leading Academic Institutes and range of companies. There will be a live exhibit which will demonstrate some of the recent alternative methods of Energy generation and harvesting technology for future applications. There will also be an opportunity for a limited number of attendees to visit cutting edge NCSR 'Demokritos' R&D facility.

The Congress is organised to bring together multidisciplinary experts from wide backgrounds including Academia, Industry and Government bodies. We strive to promote dialogue and collaborations between Scientists, Engineers, Researchers, Industry and Government Departments and those whose work addresses fundamental aspects of Materials and Renewable Energy. While the ambitious program is built around lectures from carefully selected speakers, the success of the meeting will rely on free flowing thought-provoking discussions and debates among all attendees and the generation of cross fertilising new collaborations and new synergies that facilitate the successful application of Materials and Renewable Energy.

Athens, Greece is a historic and dynamic city, which is centrally located making exploration of the city quite accessible. Thank you for participating in this exciting event.

Looking forward to welcoming you at the venue.

Professor Elias Siores (Chair), Provost of University of Bolton, UK.

SPONSORSHIP AND EXHIBITION

The global network of scientists in academia, business and government is being targeted to generate a highly qualified audience from scientists and engineers with both fundamental and applied interests.

Our sponsors and exhibitors have the opportunity to network face-to-face with some of the leading names in the field and to build brand awareness and partnerships with international delegates.

BENEFITS FOR YOUR COMPANY

- Increase brand awareness via both onsite and pre-event exposure.
- Enhance relationships with existing customers and meet new ones.
- Generate sales leads and educate the market.
- Demonstrate products or services and launch new products.
- Seek international partners and form new alliances.
- Elevate your company profile in the scientists and engineers with both fundamental and applied interests community.
- Increase visibility in focused markets.
- Communicate your message to a highly qualified scientific community.

EXHIBITION

An exhibition will run alongside the congress providing you with the opportunity to network with the delegates, demonstrate your products, generate new sales leads and raise your profile within the scientific community.

The table top exhibition package includes your logo and company name, short description and link on the congress website and programme booklet.

The following options are available:

- Diamond
- Gold
- Silver and
- Logo exhibition

EXCLUSIVE PLATINUM SPONSOR

€ 18,850

- Company acknowledgement on all official congress support signs, programme booklet, conference website and on all marketing collaterals
- Complimentary registration for 5 delegates
- Complimentary 6x3m booth expansion
- Three set of promotional materials included in the delegate bags
- A complimentary meeting room
- Your logo on all delegate badges
- Speaking opportunity in main plenary
- Complimentary full page advertisement in the programme booklet

Signature _____ Date _____

5. SCAN AND RETURN TO

Secretariat

E-mail : info@energy-conference.co.uk

TERMS AND CONDITION:

- Acceptance of applications for tabletop exhibits or sponsorship is at the discretion of the organisers.
- Cancellations: If you find it necessary to cancel your exhibition or sponsorship package, please inform the conference secretariat immediately. Cancellation more than 91 days prior to the first open day of the conference – 50% of the total charge as a cancellation penalty provided that written notice is received. Cancellation 91 days or less prior to the first open day of the conference – 100% of the total charge as a cancellation penalty.
- Payment must be made in advance of the conference and is non-refundable according to the above cancellation terms.
- You will be provided with confirmation of your booking, along with full details of shipping coordinates and relevant shipping deadlines.
- A reduction in 'stand' space shall be treated as a pro rata cancellation. A signed order of a 'stand' implies participation by the Exhibitor for the whole of the time when the hall is open to the Visitors. In the event of cancellation by the Exhibitor or failure to exhibit the 'stand' charges shall be paid in full to the Organiser.
- Cancellation charges will be applied as indicated above and the parties hereby agree that these constitute a genuine and reasonable estimate of the loss which the Organiser would incur on cancellation of the order by the Exhibitor.
- The exhibition stand contract constitutes a license to exhibit and not a tenancy. The Organiser reserves the right at any time and from time to time to make such alterations in the ground plan of the Exhibition as may in their opinion be necessary in the best interests of the Exhibition and to alter the shape, size or position allocated to the Exhibitor. No alternations to the space allotted will be made in such a way as to impose on the Exhibitor any greater liability for rental than that undertaken in the exhibition stand contract. The Exhibitor or Sponsor shall not be entitled to withhold payment of any amounts payable to the Organiser in relation to the exhibition or sponsorship package by reason of any dispute or claim by the Exhibitor or Sponsor in connection with the exhibition/sponsorship package or otherwise nor shall the Exhibitor or Sponsor be entitled to set off any amount which it is alleged is payable or due from the Organiser against any amount payable to the Organiser in relation to the exhibition or sponsorship package.
- Exhibitors are responsible for their own insurance for the event. A copy of your public liability insurance will need to be provided prior to the event.
